

CHIP MAGNETS

CHIP MAGNET WITH WHEELS VCC-19

The wheeled chip magnet is a handy tool for efficiently collecting chips and metal waste in workshops or garages. Thanks to the permanent magnetic field and the wheels, you can effortlessly drive over the waste and collect it.

Features

- Permanent magnet
- Adjustable handle from 720 to 1035 mm
- Save time when collecting chips and metal waste up to 850 g
- Operating the button switches off the magnetic field and the chips fall off the magnet
